

CORPORATE SOCIAL RESPONSIBILITY (CSR) POLICY

Our Commitment

At **DLF International Movers**, we view Corporate Social Responsibility as the integration of social, environmental and governance principles into our decisions, operations and relationships with our stakeholders. We are committed to creating a positive impact through responsible, transparent and sustainable business practices that contribute to people's wellbeing, environmental protection and the responsible development of our business.

1. People and Wellbeing

We promote a safe, respectful and inclusive working environment based on equal opportunities, professional development, diversity and employee wellbeing.

2. Environment and Sustainability

We integrate environmental considerations into our daily activities by encouraging the responsible use of resources, reducing environmental impacts, supporting circular economy principles and continuously improving our environmental performance.

3. Communities and Social Impact

We support social, environmental and community initiatives that contribute to local development and create a positive impact in the communities where we operate.

4. Clients and Service Quality

We remain committed to excellence, transparency and customer satisfaction by promoting responsible communication and the continuous improvement of our services.

5. Responsible Supply Chain

We foster responsible relationships with suppliers, agents and business partners, promoting ethical, sustainable and values-driven practices throughout our supply chain.

6. Ethics and Good Governance

We act with integrity, transparency and accountability, promoting compliance, fair competition, anti-corruption principles and respect for human rights.

7. Privacy and Information Protection

We protect information, personal data and the confidentiality of our clients, employees, suppliers and partners through responsible privacy and information security practices.

8. Our Objective

To promote a sustainable growth model that creates value for clients, employees, suppliers, communities and other stakeholders, contributing positively to society and the environment.
