

LOCAL COMMUNITY ENGAGEMENT POLICY

Our Commitment

At **DLF International Movers**, we believe in contributing positively to the communities in which we operate through social, environmental and community initiatives that reflect our values and business activities.

We support responsible partnerships that create meaningful impact and reinforce our commitment to people, sustainability and local development.

1. Social Action and Community Support

We support projects and initiatives that promote social wellbeing, solidarity and improved quality of life for communities and groups that may benefit from our collaboration.

2. Environment and Sustainability

We participate in initiatives related to environmental protection, awareness raising, waste reduction and the responsible use of resources.

3. Reuse and Circular Economy

We encourage the responsible reuse and recovery of materials and resources whenever feasible and compatible with our operational and safety requirements.

4. Social Programmes Linked to Our Activity

We support initiatives connected to our business activities, including donation programmes, reuse projects and community support initiatives that create additional value for society.

5. Transparency and Responsible Collaboration

All partnerships and community initiatives are conducted in accordance with principles of transparency, ethics, legality and respect for people, avoiding conflicts of interest and the inappropriate use of corporate resources.

6. Stakeholder Participation

We encourage collaboration with employees, clients, suppliers, social organisations and local communities to maximise the positive impact of our initiatives.

7. Our Objective

To contribute responsibly to the development of the communities in which we operate by creating social, environmental and human value through meaningful, transparent and sustainable actions.
